All the while, Grover was sent to safely bring Percy to camp. It would have been a successful mission if his mother hadn't died during their flight. Percy can't get it out of his head, both the death of his mother and the fact that he doesn't feel connected to the others. When his father's identity is revealed, it becomes clear why Perseus (Percy) Jackson is not an everyday demigod. Book 2: Sea of Monsters There are problems in the camp, serious problems. Pine Talia, patron of the magical boundaries of the camp half-blood, was poisoned. (Talia is the daughter of zeus. Percy gets a terrible vision about his friend Grover, the activities of the leader Chiron banished and moved Tantalum, Titan Kronos seems to bring himself to life. Book 3: The Curse of Titan Percy, Annabeth and Talia are called Grover, who found several children who also appear to be demigods: Nico and Bianca Di Angelo. When they try to take Di Angelo's, they are attacked by the mantykor, Mr. Dorn, and can just escape with the help of Artemis and her hunters. During the attack, Mr. Dorn and Annabeth fell from the abyss into the ocean, Percy and his friends must find Artemis in the middle of winter, because then there will be a vote on Olympus about the war against the titans and the voice of Artemis is of great importance. Besides, they must also look for the dangerous monster that Artemis hunted, for threats to the gods. Book 4: The Battle of the Maze, when Percy is attacked at school by a bunch of slender cheerleaders, he decides it's time to return to half-blood camp. There he hears stories about the Labyrinth, a terrible place designed by Daedalus. During a training fight, Percy and Annabeth accidentally find access to the Maze in the camp. It soon becomes clear that Luuk Castellan has used this entrance before. This means danger: on this road Luuk Kronos' troops can lead directly to the Camp Half-Blood. There is only one person who can help them: Daedalus, the creator of a labyrinth that is somewhere in the dark corridors of his creation. Where is? No one knows. If Daedalus can be persuaded to keep Ariadne's thread, Luuk will not be able to find the entrance to the camp. But he doesn't. He tells you that there is something much better than Ariadne's thread, namely the eyes of the mortal. It will be a heartbreaking race underground, in a maze where dangers lurk around every corner. Book 5: The Last Olympian Kronos, King of the Titans, makes the ultimate grab for power. His army is ready and begins to march through the streets of New York. Since the gods are busy on other fronts, the only ones who can stop it are the Greek demigods. It will be a battle between demigods, cyclops and titans. Can Percy and his friends hold out or are they buried by their enemies? In addition, there is an unprecedented traitor in the camp, important information is passed on to Luuk. But the only people left in the camp are Percy's friends who pretend to be different than he or she really are? What about the prophecy that almost everyone knows about except Percy? All he knows is that he's about to be 16 years old. Judging by Annabeth's reaction, he suspects it's a disgusting secret.
